iPad's are supported but they must be running iOS10 or above and must have a keyboard.

They must have Word, Excel and OneNote installed. These are available from the Apps store.

iPhones and iPods are not supported.

Notes:

- These are minimum specifications only, it is expected that devices would exceed them.
- A protective case is strongly recommended
- Full versions of Windows 8 and 8.1 are supported but will have limitations
- Full versions of Mac OS 10 and above are supported
- Windows R/T (cut down Windows) is not supported.
- No Android device is supported
- No Chromebooks
